The primary discussion item planned for the July 31st meeting will involve our design sub-consultant (Mike Notestine, of Mogavero-Notestine) and traffic/circulation sub-consultant (Wayne Shijo from CCS Planning and Engineering).

We would like to focus on key issues touched upon in previous meetings, *with a goal of gaining Steering Committee consensus on how these issues will be addressed in the draft General Plan.*

The format will be as follows: staff will make brief presentations on the below-listed items, offering an intended pathway or recommendation on how to address the item in the General Plan, followed by Committee and public feedback on the approach. Handouts will be provided at the meeting to further facilitate the discussions. In order to ensure we move through these discussion topics during the July 31st meeting, staff will limit the time the Committee and public spends on each item (as indicated on the agenda for July 31st).

The issues to be covered:

- Old Corte Madera Square.
- Paradise/San Clemente Commercial Area.
- Other Commercial Areas (including Casa Buena).
- Highway 101 overcrossing at Tamalpais Drive (connectivity between east and west Corte Madera).
- Residential neighborhood traffic considerations.
- Other traffic and circulation issues (time permitting), which may include bikeways and opportunity for the Committee and public to raise other issues.
